## Biography

Formed in Buenos Aires, Argentina in 2020 by singer Juli Hope and guitarist Yamil Ladner, Abstracted Mind is a Symphonic Metal band that blends powerful orchestral arrangements with modern and progressive metal.

In 2021, Abstracted Mind started their journey with the release of three singles: "Nadie Podrá Cambiar", "Ser Quien Soy" and "Una Oportunidad", each accompanied by an official music video.

After the pandemic, the duo relocated to The Netherlands and began writing new material in English aiming to captivate a broader audience in Europe. During 2024, the band released two new singles each with an official video called "Eternals" and "Despair", tracks that showcase a new powerful music blend and trace the path of their new sound.

To strengthen their live performances, the band added Rutger Klijn on bass and Eva Levina on drums. Abstracted Mind is now ready to take the stage and make their mark on the international metal scene. The band is currently recording upcoming releases and performing live shows.
